
JOURNAL OF CLINICAL EPIDEMIOLOGY

VOLUME 60, NUMBER 3, MARCH 2007

TABLE OF CONTENTS

Commentaries

- 215 Cost-effectiveness of different study designs: an overlooked parameter in clinical research
Matthew E. Falagas, and Ioannis A. Bliziotis
- 217 We should overcome the barriers to evidence-based clinical diagnosis!
W. Scott Richardson

Review articles

- 228 Imputing variance estimates do not alter the conclusions of a meta-analysis with continuous outcomes: a case study of changes in renal function after living kidney donation
H. Thiessen Philbrook, N. Barrowman, and A.X. Garg
- 241 Reporting in randomized clinical trials improved after adoption of the CONSORT statement
Robert L. Kane, Jye Wang, and Judith Garrard

Original articles

- 250 A cluster-adjusted sample size algorithm for proportions was developed using a beta-binomial model
G.T. Fosgate
- 256 Mini-Mental State Examination (MMSE): Scaling the MMSE using item response theory (IRT)
Jeanne A. Teresi
- 260 Mini-Mental Status Examination: A short form of MMSE was as accurate as the original MMSE in predicting dementia
Kirsten Schultz-Larsen, Rikke Kirstine Lombolt, and Svend Kreiner
- 268 Mini-Mental Status Examination: Mixed Rasch model item analysis derived two different cognitive dimensions of the MMSE
Kirsten Schultz-Larsen, Svend Kreiner, and Rikke Kirstine Lombolt
- 280 Randomized trial vs. observational study of acupuncture for migraine found that patient characteristics differed but outcomes were similar
Klaus Linde, Andrea Streng, Andrea Hoppe, Wolfgang Weidenhammer, Stefan Wagenpfeil, and Dieter Melchart

JOURNAL OF CLINICAL EPIDEMIOLOGY

VOLUME 60, NUMBER 3, MARCH 2007

TABLE OF CONTENTS *continued*

- 288 Triggered sampling could help improve longitudinal studies of persons with elevated mortality risk
Joel A. Dubin, Ling Han, and Terri R. Fried
- 294 Self-reported hepatitis B and C virus infections had low sensitivity among HIV-infected patients
Vincent Lo Re, Ian Frank, Robert Gross, Marie Synnestvedt, A. Russell Localio, Jay R. Kostman, and Brian L. Strom
- 300 Quality of Well-being profiles followed paths of health status change at micro- and meso-levels in trauma patients
John P. Anderson, and Troy L. Holbrook
- 309 Walking decreased risk of cardiovascular disease mortality in older adults with diabetes
Tyler C. Smith, Deborah L. Wingard, Besa Smith, Donna Kritz-Silverstein, and Elizabeth Barrett-Connor

Letters to the editor

- 318 Unexplained residuals models are not solutions to statistical modeling of the fetal origins hypothesis
Yu-Kang Tu, and Mark S. Gilthorpe
- 319 Response to Tu and Gilthorpe: Preventing misinterpretation of coefficients in analysis of fetal origins of adult disease
M.G. Keijzer-Veen
