# JOURNAL OF CLINICAL EPIDEMIOLOGY

---

VOLUME 153, JANUARY 2023

## TABLE OF CONTENTS

---

### *Editors' Choice*

- A1 Farewell to Peter Tugwell, welcome to Andrea Tricco  
*André Knotterus and David Tovey*

---

### *Commentaries*

- 78 Heterogeneity in multicentre trial participating centers: lessons from the TOPCAT trial on interpreting trial data for clinical practice  
*Matbew Mercuri and Amiram Gafni*
- 83 Regulatory agencies disregard real-world effectiveness evidence on product labels beyond what is reasonable  
*Rafael Dal-Re', Raphaël Porcher, Frits R. Rosendaal, and Brigitte Schwarzer-Daum*

---

### *Covid-19 Series*

- 91 Noninterventional studies in the COVID-19 era: methodological considerations for study design and analysis  
*Anne M. Butler, Mehmet Burcu, Jennifer B. Christian, Fang Tian, Kathleen M. Andersen, William A. Blumentals, Karen E. Joynt Maddox, and G. Caleb Alexander*
- 102 Understanding how deferred consent affects patient characteristics and outcomes: an exploratory analysis of a clinical trial of prone positioning for COVID-19  
*Michael Colacci, Afsaneh Raissi, Ajay Bhasin, Leora Branfield Day, Melissa Bregger, Travis Carpenter, Lana Castellucci, Angela M. Cheung, Laura Dragoi, Richard Dunbar-Yaffe, Lee Fidler, Rob Fowler, Alexi Gosset, Rachel Hensel, Margaret Herridge, Haseena Hussein, Moira Kapral, Laveena Munsbi, Kieran Quinn, Fabad Razak, Bruno Roza da Costa, Christine Soong, Terence Tang, Kevin Venus, Amol Verma, and Michael Fralick*

---

### *Review Article*

- 13 Types and associated methodologies of overviews of reviews in health care: a methodological study with published examples  
*Konstantinos I. Bougioukas, Konstantinos Pamporis, Elpida Vounzoulaki, Thomas Karagiannis, and Anna-Bettina Haidich*

---

### *Original Articles*

- 1 Reporting and methodological quality of acupuncture network meta-analyses could be improved: an evidence mapping  
*Yan Wang, Nan Chen, Kangle Guo, Yanfei Li, Fenfen E, Chaoqun Yang, Xue Shang, Xiuxia Li, and Kebu Yang*

# JOURNAL OF CLINICAL EPIDEMIOLOGY

---

VOLUME 153, JANUARY 2023

## TABLE OF CONTENTS *continued*

- 26 In a pilot study, automated real-time systematic review updates were feasible, accurate, and work-saving  
*Iain J. Marshall, Thomas A. Trikalinos, Frank Soboczenski, Hye Sun Yun, Gregory Kell, Rachel Marshall, and Byron C. Wallace*
- 34 Identifying type 1 and 2 diabetes in research datasets where classification biomarkers are unavailable: assessing the accuracy of published approaches  
*Nicholas J. Thomas, Andrew McGovern, Katherine G. Young, Seth A. Sharp, Michael N. Weedon, Andrew T. Hattersley, John Dennis, and Angus G. Jones*
- 45 An overview of methodological considerations regarding adaptive stopping, arm dropping, and randomization in clinical trials  
*Anders Granholm, Benjamin Skov Kaas-Hansen, Theis Lange, Olav Lillebolt Schjørring, Lars W. Andersen, Anders Perner, Aksel Karl Georg Jensen, and Morten Hylander Møller*
- 55 A standardized measurement instrument was recommended for evaluating operator experience in complex healthcare interventions  
*Angus G.K. McNair, Christin Hoffmann, Rhiannon C. Macefield, Daisy Elliott, Jane M. Blazeby, Kerry L.N. Avery, and Shelley Potter*
- 66 Data-driven network analysis identified subgroup-specific low back pain pathways: a cross-sectional GLA:D Back study  
*Bernard X.W. Liew, Jan Hartvigsen, Marco Scutari, and Alice Kongsted*
